

REMARKS

This is in full and timely response to the above-identified Office Action. The above listing of the claims replaces all prior versions, and listings, of claims in the application. Reexamination and reconsideration in light of the proposed amendments and the following remarks are respectfully requested.

In this response, claim 1 is amended to incorporate part of the subject matter of allowable claim 8 and thus call for the recited device to be configured for use in a vehicle, while claims 10, 11 and 13 has been amended to call for the coil to comprise an antenna coil. Claims 8 and 9 have been amended in accordance with the transfer of subject matter from claim 8 to claim 1, and to obviate an inadvertent antecedent basis problem. It is submitted that these amendments overcome the anticipation rejection under 35 USC § 102(b) by calling for structure neither disclosed in nor suggested by the disclosure of Yamashita.

Inasmuch as claims 15-20 stand allowed it is courteously requested that the amendments to claims 1, 8-9, 10-11 and 13, be favorably considered and the application passed to allowance.
